# SPC FLOORING STRUCTURE

①

## UV Coating extra-dur.

Adds maximum resistance to UV from the sun, the color keeps stable without tarnish. This superior layer avoids the deterioration due to scratches, stains or clefts.

②

## High resistance PU protective layer.

Composed by ceramic micropearls avoids the wear and guarantees an extreme durability and acts as an extra protector layer..

③

## PVC decorative layer.

The superior layer of vinyl is the designed element to give style to this technic pavement.

④

## SPC Board.

The SPC board is characterised for being dense, 100% waterproof with the guarantee of resistance against expansion and shrinkage.

⑤

## EVA backing.

Adaptable to small imperfections of the subfloor providing damping.
